

Mastering gender in research performance, contexts and outcomes

BERLIN, GERMANY

6-7 NOVEMBER, 2015

PROGRAMME AT A GLANCE

BACKGROUND

Established in 2011, the Gender Summit has become the foremost forum for engaging top-level researchers, policy makers, science and innovation leaders, and other stakeholders in STEM, to address sex and gender issues in research and innovation where they impact on efficacy, quality and success.

GS7 EUROPE

The GS7Eu takes place in Berlin and precedes the Falling Walls celebration as a reminder that gender inequality is a “wall” that also must fall. The event will focus on:

- Advancing understanding of when, how and why gender issues in research can produce different outcomes for women and men
- Demonstrating important intellectual, societal and economic benefits of gender mainstreaming
- Demonstrating how to transform policy context through strategic, high-level policy alliances to enable lasting change to take place.

SINCE 2011, The GS

- has attracted 2000+ delegates and 400 speakers from more than 50 countries
- has expanded to North America, Africa and Asia-Pacific
- has shaped institutional, national and international policies.

Day 1: Friday November 6

The benefits of gender equal and gender sensitive research and innovation

- Assessment of individual excellence: metrics, merits and gender
- Assessment of scientific excellence: practices, processes, outcomes
- Shaping the Gender Summit's regional and global mission

Day 2: Saturday November 7

Enhancing the capacity of policy actions to achieve lasting change

- Demonstrating socially impactful benefits of gender responsive science
- Realising the full scope of policy impact through strategic alliances among key players
